

# Certified for Success.

Success is measured by  
the impact you make.

# Elevate risk assurance. *Arrive ahead.*

**If you're already a Certified Internal Auditor® (CIA®),** take that next step and get your Certification in Risk Management Assurance®. CRMA® links all the critical, individual elements together for that big-picture, holistic view of organizational risk.

# Earn the Certification in Risk Management Assurance.

## A REINFORCED FOUNDATION

To keep pace with the dynamic global risk arena, The Institute of Internal Auditors (IIA) relaunched its Certification in Risk Management Assurance® (CRMA®) program in October 2021 to reflect the in-depth organizational knowledge and advanced skill sets that are required to provide effective risk management assurance.

# A bird's-eye view.

**As a core responsibility,** The IIA is focused on providing internal audit practitioners with opportunities to gain, strengthen, and showcase their risk management assurance capabilities.

To accomplish this, key changes were made to the CRMA exam, which included:

- *Making all questions proficient level.*
- *Incorporating a greater variety of question formats.*
- *Extending seat time.*

Additionally, changes were made to the overall program, including expanding the prerequisites (an active CIA is now required), as well as making the essential work experience more robust.

The collective effect of these changes will help to remove ambiguity between the CIA and CRMA designations and empower practitioners to showcase their advanced risk management assurance acumen.

## Take your career to new heights.

**Earning the Certification in Risk Management Assurance® (CRMA®)** broadens your holistic view of the organization's strategies and business objectives. It also proves you are an experienced, credible professional and showcases your ability to enhance governance, risk management, and control processes.

## Focus on the top.

**As the only risk** management assurance certification for internal auditors, the Certification in Risk Management Assurance® (CRMA®) focuses on the key elements to unlocking internal audit's full potential, and validates one's ability to provide advice and assurance on risk management to audit committees and executive management.

Earning the CRMA helps address the impact of risk and demonstrates you have the ability to:

- *Provide assurance on core business processes in risk management and governance.*
- *Educate management and the audit committee on risk and risk concepts.*
- *Offer quality assurance and control self-assessment.*
- *Focus on strategic organizational risks.*
- *Add value for your organization as a trusted advisor.*

## Quote Worthy

*“Having my CRMA not only proves that I am an experienced and credible professional with a holistic view of the organization’s strategies and business objectives, but also showcases my ability to enhance governance, risk management, and control processes.”*
